PROFESSIONAL SUMMARY

Tech-savvy software engineer specializing in web development, with more than 6 years of experience and a knack for solving complex problems in an efficient and durable way. Highly organized, self-motivated, articulate, reliable, and eager to be challenged in order to grow and further improve my professional and technical skills.

WORK HISTORY

RemoteReps (Aug-2020 to Jan-2021, Mar-2023 to Continue)

Vendo

8 months and continue / NextJS, ReactJS, NodeJS, NestJS

Build your brand on a strong foundation, accelerate your growth with collaborative strategy designed by cutting edge specialists. A platform where you can see all the stats of your brand performance and manage campaigns, integrated with Amazon and Walmart.

Globalsense

2 months / ExpressJS(Backend)

Mobile Application to add smart devices and manage the security notifications and alerts.

Office App

8 month / ROR, ReactJs

Remote Reps provides the needed solution: a virtual sales and service workforce, sourced from our strong network of experienced professionals around the world. The product is about hiring new resources and managing resources, clients, and their projects effectively.

Jazzari (Jan-2021 to Mar-2023)

Firefighter VR

Maintenance updates / ROR

The Firefighter VR Trainings Platform under the patronage of the German Association of the factory firefighter departments (WFVD) and run by the Northdocks GmbH offers a software as a service platform for training in VR.

Developer Skill Test

Reviewer / ROR

The tool to hire new developers via proper skill testing. I was responsible for developing as well as code reviews.

Emilia Insurance & Whiskey Tango

2 months / VueJS, ROR

I was responsible for developing the frontend for both of the company's sites as well as the backend to manage the authentication, subscriptions, and alerts.

Eggplant

1 month / ReactJS, web3, Binance

Eggplant is a new deflationary token on the Binance Smart Chain, featuring its own DEX — A passion project formed from the wet dreams of every crypto enthusiast. I was responsible for the FrontEnd development to manage Swapping, Liquidity, and Stakes.

Rageon

5 month / ROR, ReactJs, Liquid, Shopify integration, and NodeJS

RageOn.com is the World's Largest All-Over-Print Online Store that features over 150 licensed celebrities, brands, and artists from all over the world. Here users can create customized products of more than 200 types and can call on Rageon as well as their own Shopify stores.

Createy

12 months(continue) / ROR and ReactJS

A one-stop solution for creating and managing your online business, including payment solutions, mobile, and web app creation and management, inventory management, and many more.

Devsinc (Jul-2017 to Apr-2020)

HRMS (maintenance updates)

ROR and ReactJS

It's a Human resource management system. It manages resource leaves, extra expenses, queries, etc.

SS-Cloud

12 months / ROR and Python(flask)

It's a platform to manage unsold, damaged products, and hazardous waste. Here buyers can contact sellers and it will also provide guidance for hazard waste transport rules applicable to their products.

Acloud / A10Networks

16 months / ROR and React(components)

This is a License management tool of a well-known Networking company. A user can buy a license of a Network security device and can monitor its usage here.

TRM

4 months / ROR

A platform for universities and students where Universities can offer courses and Students can enroll themselves in multiple courses.
