## PROFESSIONAL SUMMARY

Tech savvy software engineer specializing in web development, with more than 3 years of experience and a knack for solving complex problems in an efficient and durable way. Highly organized, self-motivated, articulate, reliable and eager to be challenged in order to grow and further improve my professional and technical skills.

---

## WORK HISTORY

### Createy / Code Jitters

5 month(continue) / ROR and ReactJs

A one stop solution for creating and managing your online business, including payment solution, mobile and web app creation and management, inventory management and many more.

### Eduleaf / Devsinc

1 month / ROR

Eduleaf is an automated online tool that allows the grading of ordinary paper-based exams containing any type of questions. It can handle math questions, chemical diagrams, essay questions, as well as multiple-choice.

### HRMS / Devsinc

3 months / ROR and ReactJS

It's a Human resource management system. It manages resource leaves, extra expenses, queries, etc.

### SS-Cloud / Devsinc

10 months / ROR and Python(flask)

It's a platform to manage un-sold, damaged products and hazard waste. Here buyers can contact sellers and it will also provide guidance for hazard waste transport rules applicable on their products.

### Acloud / Devsinc / A10Networks

12 months / ROR and React(components)

This is a License management tool of a well known Networking company. A user can buy a license of a Network security device and can monitor its usage here.

### TRM / Devsinc

4 months / ROR

A platform for universities and students where Universities can offer courses and Students can enroll themselves into multiple courses.
