PROFESSIONAL SUMMARY

Tech-savvy software engineer specializing in web development, with more than 6 years of experience and a knack for solving complex problems efficiently and durably. Highly organized, self-motivated, articulate, reliable, and eager to be challenged to grow and further improve my professional and technical skills.

WORK HISTORY

RemoteReps (May-2022 to Continue)

Office App
May-2022 to continue / ROR, ReactJs

Remote Reps provides the needed solution: a virtual sales and service workforce, sourced from our strong network of experienced professionals worldwide. The product is about hiring new resources and managing resources, clients, and their projects effectively.

Vendo
March-2023 to continue / NextJS, ReactJS, NodeJS, NestJS

Build your brand on a strong foundation, and accelerate your growth with a collaborative strategy designed by cutting-edge specialists. A platform where you can see all the stats of your brand performance and manage campaigns, integrated with Amazon and Walmart.

Global-Sense
Jan-2023 to March-2023 / ExpressJS(Backend)

Mobile Application to add smart devices and manage the security notifications and alerts.

Jazzari (April-2020 to May-2022)

Firefighter VR
Dec-2021 to May-2022 / Maintenance updates / ROR

The Firefighter VR Trainings Platform under the patronage of the German Association of the factory firefighter departments (WFVD) and run by the Northdocks GmbH offers software as a service platform for training in VR.

Developer Skill Test
Dec-2021 to May-2022 / Reviewer / ROR

The tool to hire new developers via proper skill testing. I was responsible for developing as well as code reviews.

Emilia Insurance && Whiskey Tango
Oct-2021 to Dec-2021 / VueJS, ROR

I was responsible for developing the front end for both of the company's sites as well as the back end to manage the authentication, subscriptions, and alerts.

Eggplant
Sep-2021 to Oct-2021 / ReactJS, web3, Binance

Eggplant is a new deflationary token on the Binance Smart Chain, featuring its own DEX — A passion project formed from the wet dreams of every crypto enthusiast. I was responsible for the FrontEnd development to manage Swapping, Liquidity, and Stakes.

Rageon
April-2021 to Sep-2021 / ROR, ReactJs, Liquid, Shopify integration, and NodeJS

RageOn.com is the World's Largest All-Over-Print Online Store that features over 150 licensed celebrities, brands, and artists from all over the world. Here users can create customized products of more than 200 types and sell on Rageon and their own Shopify stores.

Createy
April-2020 to April-2021 / ROR and ReactJS

A one-stop solution for creating and managing your online business, including payment solutions, mobile, web app creation and management, inventory management, and many more.

Devsinc (Jul-2017 to Apr-2020)

HRMS (maintenance updates)
Sep-2019 April-2020 / Maintenance only / ROR and ReactJS

It's a Human resource management system. It manages resource leaves, extra expenses, queries, etc.

SS-Cloud
April-2019 - April-2020 / ROR and Python(flask)

It's a platform to manage unsold, damaged products, and hazardous waste. Here buyers can contact sellers and it will also guide hazard waste transport rules applicable to their products.

A-cloud / A10Networds
Jan-2018 to April-2019 / ROR and React(components)

This is a License management tool of a well-known Networking company. A user can buy a license for a Network security device and can monitor its usage here.

TRM
Aug-2017 to Dec-2017 / ROR

A platform for universities and students where Universities can offer courses and Students can enroll themselves in multiple courses.
